

The Energy Fair

A Celebration of Energy Efficiency Actions in SCDSB

When: 9:45am-11:45am (Grp A & B), or 11:45am - 1:45pm (Grp C)*

Date: Feb 11th, 2010

Where: Science North

Who: DC Teacher and Class (or Club in SS)

Transportation: By Bus, sponsored by Union Gas

Details, Details

At the October 21st workshop, each DC teacher and group decided on their School Energy Efficiency Plan which has been posted to the EcoCentre on their school page (www.dearncss.ca/sudbury_catholic).

As part of the conservation activities, this year a celebration of what is done in each school will be held at Science North.

Students will experience an Imax event, and a presentation by Science North's Franco Mariotti. In addition (this is the sharing part), each school will give a 3 minute presentation about what they have done to reduce energy and water use, waste and/or outreach activities in which they have participated.

The Schools will be broken into 3 groups, A, B and C, with A and B arriving at 9:45 and leaving at 11:45, Group C arriving at 11:45 and leaving at 1:45pm.

Please have one parent volunteer per school attend to help in supervision.

**See next page for Group A, B or C assignment, by School*
